Company Grand Hotel Rogaska | SLKI d.o.o. ensures a safe working environment and cares for the health of our employees and guests.

We strive to maintain a **healthy and safe environment for all people** involved in our business by:

- We make sure that all employees are qualified for work.
- We adequately control the health and safety risks associated with our work activities and maintain safe and healthy working conditions.
- We consult with our employees on matters affecting their health and safety.
- We train employees in occupational health and safety by providing information, instructions and supervision.
- We train employees in fire protection.
- We train employees in accordance with the risk assessment of each workplace (e.g. handling dangerous chemicals, etc.).
- We provide protective equipment and work equipment for jobs that need it.
- We comply with applicable legislation and other requirements relating to health and safety at work.
- We regularly check routes and evacuation plans, firefighting equipment and fire alarm systems.
- Signs are installed in all hotels to protect their guests and employees from any incident of danger.
- In all hotels, employees are trained to give first aid
- Smoking is prohibited in hotels. We encourage our employees not to smoke, but we respect their decision.

This policy is available to employees on notice boards and to guests on hotel premises and on the website.
